

SaaS Spend and Security Risk Assessment

Struggling with SaaS deployments and usage?

- *Using SaaS Solution Subscriptions effectively?*
- *Configuring SaaS solutions to avoid Cybersecurity Risks and meet compliance requirements?*
- *Having necessary safeguards to prevent data breaches by our users?*
- *Maximizing SaaS Return on Investment*

How can we help?

We assess the SaaS deployment and configuration, audit for cybersecurity risks and leverage proven solutions which help to reduce spend and maximize Return on Investment:-

- *Analyse licenses spend vs usage*
- *Identify users and account at risk*
- *Identify high exposure processes*
- *Compare Baseline vs Changes over time*
- *Reclaim licenses and eliminate risks*

How ?

- ✓ *Scoping*
- ✓ *Conduct Assessment*
- ✓ *Remove false positives*
- ✓ *Review and validate findings*
- ✓ *Implement changes*
- ✓ *Continuously monitor and improve*
