

Struggling with?

- *Training and keeping large number of users abreast with the constantly evolving cybersecurity threats?*
- *Cybersecurity awareness for users are often the weakest link in supply chain of information security*
- *Helping users shield themselves from phishing threats*
- *Validating awareness levels and responses of users periodically and bridging knowledge gaps*

How can we help?

We use industry best practices to deliver customised IT Security Training and conduct phishing simulations

- *Based on International Standards such as CREST, OWASP, SANS etc*
- *Leverage use of world's largest security awareness training and simulated phishing platform*
- *Periodic phishing simulations to regularly check users' awareness, benchmark against industry peers and put improvement trainings in place*

Typical Coverage

- ✓ *Why Cybersecurity?*
 - *Cyberthreats*
 - *Anatomy of a cyber threat*
 - *CREST Methodology*
 - *OWASP Top 10/SANS Top 25*
 - *Recent Cybersecurity Events*
 - *Cyber Security Challenges*
- ✓ *Cybersecurity Incident Response Framework*
 - *Cybersecurity Incident Response Framework Components*
 - *Crisis Management*
